About Specialist Services

Your Path. Your Future.

Starting an apprenticeship or traineeship is an excellent way for jobseekers and career changers to gain professional skills and industry knowledge while earning an income and working towards a nationally recognised qualification.

With team members across metro, regional and remote Australia, the ASA team is dedicated to empowering jobseekers, apprentices and trainees to build rewarding careers with apprenticeships and traineeships.

In addition to delivering generalist services, ASA also offers targeted apprenticeship support for:

- [Women in male-dominated trades](#)
- [First Nations Australian apprentices](#)
- [Australian apprentices in clean energy occupations](#)

Additional benefits for apprentices and trainees:

Mentoring
and ongoing
support

About this Guide

This guide is designed to give Western Australians the opportunity to view a vast array of apprenticeship and traineeship career options that are available in businesses operating in WA, in one place.

Powered by the Chamber of Commerce and Industry WA, Apprenticeship Support Australia is contracted by the Australian Government to connect jobseekers with apprenticeship and traineeship opportunities and supports employers in identifying, recruiting and retaining apprentices and trainees.

ASA specialises in providing support for women in male-dominated trades, First Nations Australian apprentices, and clean energy apprentices, in addition to its generalist services as a national provider. This guide provides a snapshot of apprenticeship and traineeship opportunities that are available or coming available over the next year.

If you are an employer that would like to put your next intake into this guide, please contact Apprenticeship Support Australia on 1300 363 831.

Follow us on Facebook

This Guide covers major intakes, but many employers also hire apprentices and trainees throughout the year. Don't miss out on these opportunities! For daily updates, follow the Apprenticeship Support Australia – WA Jobs Facebook page to stay informed about new openings.

About GTOs

Understanding the Difference

Direct Employment Apprenticeships and Group Training Organisations

It's important to understand that some employers in this guide are group training organisations (GTO) while other businesses listed, directly employ their apprentices and trainees as their own employees. So what is the difference?

Group Training

A GTO employs apprentices and trainees and hosts them out to other employers. The GTO is responsible for paying you, supporting you in your placements with employers and will arrange your off-the-job training and ensure you are managing both the on-the-job and off-the-job training.

In some instances, you may be moved to other host employers throughout the apprenticeship/traineeship to ensure that you are getting the workplace exposure you need to complete your competencies.

Your GTO will pay your wages and superannuation and cover all of the required insurances. You will have access to a Field Supervisor (or similar) – who will support you throughout your apprenticeship or traineeship. Once you have completed your apprenticeship or traineeship, you may be offered a permanent position with one of your host employers or you can pursue other opportunities.

Direct Employment

If you are being employed directly by an employer as an apprentice or trainee you are expected to stay with that employer for the term of your apprenticeship/traineeship contract.

Your employer will organise your off-the-job training with a training provider and give you the time to complete your off-the-job training.

Essentially, you are an employee of the company for the term of your training contract. They directly pay your wages and superannuation and cover all insurances for you. You have access to the same benefits and responsibilities like any other employee of the business.

If you need assistance, or there are any issues and you need to change employer, that will be up to you to find a new employer. Apprenticeship Support Australia will be able to help you if you need a mentor to assist you through any difficulty with your employer, training or other personal issues as they arise.

Once you have completed your apprenticeship or traineeship, you may be offered a permanent position with your employer as a qualified staff member.

Myth VS Fact

What you really need to know about apprenticeships and traineeships

MYTH 1: Apprenticeships are only for traditional trades.

FACT 1: There is a huge range of opportunities for apprenticeships and traineeships across the following industries – from construction, electrical, automotive, business, health, community services, hospitality, technology and more.

MYTH 2: Apprenticeships and traineeships are only for school leavers.

FACT 2: You can start an apprenticeship or traineeship at different ages (minimum starting age is 15) and stages of your career – whether you're leaving school, changing careers, returning to work or looking to gain a qualification.

MYTH 3: You cannot earn money and study at the same time.

FACT 3: You can actually earn money while you're studying. By choosing an apprenticeship and traineeship pathways, you can be employed, earn a wage and work towards a nationally recognised qualification at the same time.

MYTH 4: University is the only pathway to a successful career.

FACT 4: Apprenticeships and traineeships can lead to skilled careers, further qualifications, leadership opportunities, business ownership and ongoing career progression.

MYTH 5: You need experience before you can apply.

FACT 5: Many employers are looking for people with potential. Being reliable, willing to learn and genuinely interested in the industry can be just as important as previous experience.

MYTH 6: You're on your own once you start.

FACT 6: You're never alone on your apprenticeship or traineeship journey. Alongside the support of your employer and training provider, Apprenticeship Support Australia links you to a range of valuable support services every step of the way. We provide personalised guidance, mentoring support, encouragement and practical support to help you overcome challenges, stay on track and achieve your goals.

MYTH 7: My formal training will start as soon as I start my apprenticeship or traineeship.

FACT 7: Not always. Once your Training Contract is signed, your Registered Training Organisation (RTO) will work with you and your employer to complete your enrolment and Training Plan. Your formal training start date will depend on your RTO and course availability. If you're training through TAFE, classes may be scheduled months in advance, so you may need to wait for the next available intake or semester.

Don't worry – you are still an apprentice or trainee while you're waiting for your formal training to commence.

Your apprenticeship or traineeship includes both learning on the job with your employer and completing your nationally recognised qualification with your RTO.

MYTH 8: I need to wait until there's a problem in my apprenticeship or traineeship, before I reach out for support.

FACT 8: The best time to connect with a mentor is before you need help. Apprenticeship Support Australia's mentoring service is here to help you stay motivated, build confidence, navigate challenges early, understand your options available on your training contract and get the most out of your apprenticeship or traineeship. A simple conversation today can help set you up for success tomorrow.

MYTH 9: Mentoring support is only available for issues within the workplace.

FACT 9: Apprenticeship Support Australia's mentoring service is a free and confidential support network available to apprentices and trainees at any stage of their journey. Our mentors provide personalised guidance to help navigate challenges both inside and outside the workplace, supporting everything from work and training requirements to financial pressures, wellbeing, personal circumstances and study needs. Whatever life throws your way, you don't have to face it alone.

Why choose an apprenticeship or traineeship?

- Earn while you learn
- Gain real workplace experience
- Achieve a nationally recognised qualification
- Build practical, transferable skills
- Start building your career from day one

Your career doesn't have to follow one path. An apprenticeship or traineeship could be where yours starts.

Career Guidance and Support

Vocational education and training pathway offers a wide range of learning and upskilling opportunities for school leavers and industry professionals. ASA has a **dedicated career support team** to help jobseekers of different backgrounds and education levels to explore pathway options and connect them with suitable employers to complete their apprenticeships or traineeships.

The emphasis on career support is one of the fundamental elements of ASA and is essential to the wellbeing and success of our jobseekers, apprentices and trainees. Our team offers ongoing support for apprentices and trainees throughout their apprenticeship/traineeship.

ASA offers a range of support to jobseekers, apprentices and trainees on our digital channels including:

- **Learn at Lunch:** online resources offering practical advice on wellbeing and finances.
- **Skillsroad:** providing a snapshot of tips to help apprentices and trainees achieve success.
- **Career support services:** to guide WA jobseekers to explore apprenticeship and traineeship pathways.
- **Tailored support:** access end-to-end career support through the apprenticeship/ traineeship.

Apprenticeship and Traineeship Opportunities

A1 LOCKSMITHS

Location: Morley, Osborne Park & Mandurah

Type: Apprenticeships

Industry: Locksmith & Security

Applications Open: Ongoing

Applications Close: Ongoing

Start Date: Ongoing

Enquiries: sales@a1locksmiths.com.au

How to Apply: Call (08) 93702943

Website: www.a1locksmiths.com.au/contact-us

ABOUT A1 LOCKSMITHS

A1 Locksmiths is a proudly family-owned and operated business that has been providing trusted locksmith services across the Perth metropolitan area and beyond since 1985. Founded by the husband and wife team of Ray and Lesley, the business has grown from a small operation into a team of over 40 police-licensed, qualified tradespeople and professional staff.

The business specialises in:

- Emergency lock repairs and replacements
- Home and commercial security systems
- Access control solutions
- Restricted key systems
- Digital door locks
- Safes and padlocks for offices, warehouses, and schools

ABOUT THE PROGRAM

A locksmith apprenticeship is a hands-on training program under the guidance of an experienced locksmith. It typically involves learning key skills such as lock installation, repair, key cutting, and security system setup.

Industry: Disability

Applications Open: Ongoing

Applications Close: Ongoing

Start Date: Ongoing

Enquiries: rto@activ.asn.au

How to Apply: Via Apprenticeship Support Australia
Call 1300 363 831

Website: activ.asn.au

ABOUT ACTIV FOUNDATION

Activ exists to improve the lives of people living with disability, their families and carers. The company believes that greater accessibility and inclusion for people living with disability benefits everyone, and it has a role in expanding opportunities.

Activ provides environments for customers to Live, Learn, Play and Work with confidence and grow the potential of all people to live the life they choose. They have a range of services available including accommodation, employment, property care, community groups and activities, positive behaviour support and more, enabling their staff and customers to experience a range of different aspects of one of the biggest care industries in Australia.

Activ also runs a registered training organisation (RTO), Activ Pathways, which trains and develops people within or new to the disability sector and care sectors as a whole. Having Pathways as part of Activ ensures great training opportunities for those interested in starting a career in the disability industry, or upskilling those looking to grow in their career.

ABOUT THE PROGRAM

Traineeship candidates will have the opportunity to work towards a nationally accredited qualification while being employed by one of the largest DSOs in Western Australia. Trainees will receive training from their RTO towards a nationally accredited qualification, plus workplace experience amongst a passionate and supportive team.

ABOUT AI GROUP APPRENTICE AND TRAINEE CENTRE

Ai Group Apprentice and Trainee Centre is a GTO that makes it easier for companies to take on apprentices and trainees. It currently 'hosts' approximately 450 apprentices and trainees to some of Australia's leading organisations, as well as many local and State Government departments. The company also promotes apprenticeships and traineeships as essential employment programs to help Australian businesses succeed in having the right talent for future skills needs.

Ai Group Apprentice and Trainee Centre undertakes on-the-job training, under a contract of training, with specially selected host companies that have an excellent safety and training culture.

ABOUT THE PROGRAM

With skilled and experienced staff assisting candidates to navigate a successful completion of a qualification, Ai Group Apprentice and Trainee Centre can provide placements with many of Australia's leading companies in a range of industries and business sectors, providing apprentices and trainees with high quality and practical experience to take forward into their career.

The Centre provides apprentices and trainees with thorough and ongoing safety training, as well as PPE equipment.

A mentor will visit you at your workplace, and training provider approximately every six weeks to ensure you receive the proper guidance and mentoring to achieve the most out of your training.

ALCOA

Location: Throughout WA

Type: Apprenticeships

Industry: Mining and Resources

Applications Open: ~~June 2026~~

Applications Close: ~~July 2026~~

Enquiries: auarecruitments@alcoa.com.au

How to Apply: Online via the Alcoa Careers Page
alcoa.com/australia/en/careers

Website: alcoa.com/australia/en/careers

ABOUT ALCOA

Alcoa operates one of the world's largest integrated bauxite mining, alumina refining and aluminium smelting systems. Its two bauxite mines and three alumina refineries in WA produce about 45% of the nation's alumina. Alcoa's Portland Aluminium Smelter, in Victoria, produces about 19% of the nation's aluminium.

Since operations began in 1963, it has built a reputation as leaders in environmental management. It is the world's lowest CO2 emitting alumina producer and the first mining company to receive recognition from the United Nations for rehabilitation excellence.

Alcoa's teams work daily to develop and lead new and innovative processes to help achieve Australia's net zero ambition and vision to reinvent the industry for a more sustainable future.

The company proudly creates shared value in the places where it operates, investing more than \$3 billion annually in Australia through wages, taxes, royalties, procurement and community support.

ABOUT THE PROGRAM

If you're looking to turn your raw potential into real progress, then work locally at one of the company's bauxite mines or alumina refineries in the Kwinana, Peel and Upper South West regions in WA.

APPRENTICESHIPS

Enjoy first-class hands-on training in an inclusive safety-focused environment and on completion of your apprenticeship receive a nationally recognised trade certificate.

ALLSPEC ENGINEERING

Location: Hope Valley

Type: Apprenticeships and Traineeships

Industry: Engineering and Fabrication

Applications Open: All year

Applications Close: N/A

Start Date: Flexible to applicant

Enquiries: recruitment@allspecengineering.com.au

How to Apply: Send a resume and cover letter, outlining the opportunity you are interested in and why you think you should be considered for the position to:

recruitment@allspecengineering.com.au

Website: allspecengineering.com.au

ABOUT ALLSPEC ENGINEERING

Allspec Engineering is a result-driven steel fabricator, operating from its Hope Valley facility and working with clients across the resources sector.

ABOUT THE PROGRAM

Its **School Based Trainee Programme** provides the opportunity for students to gain a Certificate II in Engineering whilst gaining practical work experience.

- Working one day per week at Allspec Engineering
- Attending TAFE one day per week to complete studies in Certificate II in Engineering
- Attending school for the remaining days to complete curriculum studies.

The School Based Traineeship is an 18-month commitment by both Allspec Engineering and the student and may lead to the offer of an apprenticeship upon successful completion.

Allspec Engineering's Apprenticeship Program was created to fulfill its commitment of developing trade professionals within the industry.

Apprentices attend TAFE on block release to complete the study of the Certificate III in Engineering – Fabrication and work with our experienced Tradespeople on the shop floor to develop the practical skills and experience required.

After the four year apprenticeship, the company offers opportunities for career growth and progression in line with the goals and aspirations of each individual.

LATEST OPPORTUNITIES:

- 10 x School Based Traineeship
- 5 x Apprentice Boilermakers

Applications Close: Ongoing

Start Date: Anytime

Enquiries: recruit@arragroup.com.au

How to Apply: Send resume to
recruit@arragroup.com.au

Website: arragroup.com.au

ABOUT ARRA GROUP

ARRA Group is a local WA company partnering with leading oil and gas/mining companies to provide its employees with opportunities that support a great lifestyle. The company operates in the space of oil and gas, mining, rail, civil construction, health and defence. As a registered Group Training Organisation, the company places apprentices with the clients under a host employer-employee arrangement with plenty of support. ARRA is dedicated to prioritising candidates' best interests and fostering a strong employer/employee relationship.

ABOUT THE PROGRAM

You will have the chance to gain hands-on experience with your host employer while attending required training sessions. Depending on the apprenticeship or traineeship you choose, the duration will vary. Blue-collar trades can expect a 4-year commitment, while white-collar traineeships may range from 12-24 months. ARRA provides dedicated mentors to ensure you receive continuous support, following an outlined training plan. Blue-collar apprentices will be trialled locally and rotated through various sectors to gain diverse exposure.

Indigenous candidates are encouraged to apply. As a majority Indigenous-owned company focused on developing capacity, growing capability, and increasing the economic footprint of Indigenous business in Western Australia, the company strongly encourages candidates who identify as Aboriginal and/or Torres Strait Islander to apply for the roles.

Additionally, the company is seeking a mechanical fitter apprentice for Kwinana, WA.

LATEST OPPORTUNITIES:

The company is currently seeking motivated and enthusiastic individuals to join its team as full-time apprentices and trainees in the following areas:

- Electrical
- Carpentry
- Mechanical Fitter
- Boilermaker/Welder
- Rigger
- Scaffolding
- Painter & Blaster
- Civil Construction
- Warehouse Operator
- Traineeship

DEFENCE

ASC PTY LTD

Location: South Australia (Osborne) and Western Australia (Henderson)

Type: Apprenticeships

Industry: Defence

Applications Open: Refer to www.asc.com.au/careers

Applications Close: Ongoing

Start Date: Typically, January/February

Enquiries: careers@asc.com.au

How to Apply: www.asc.com.au/careers

Website: asc.com.au

ABOUT ASC

ASC is Australia's submarines company. Its highly skilled staff offer a depth of submarine sustainment, design, supply chain, construction, and engineering experience and expertise that is unparalleled in Australia's defence industry.

ASC built the nation's Collins Class submarines, sustains them, and is delivering the fleet's Life of Type Extension. The company has also been selected to sustain and jointly build conventionally armed, nuclear-powered submarines in Australia and plays a leading role in training Australia's submariners.

Their four-year Apprenticeship Program provides participants with hands-on experience for a career in Australia's defence industry. Apprentices will engage in real, meaningful work to support the Royal Australian Navy and will have the opportunity to work alongside some of Australia's most skilled and award-winning tradespeople and trainers.

LATEST OPPORTUNITIES:

- Electrical
- Fabrication – Boiler/Welder
- Mechanical - Fitter

Essentials:

- Strengths in STEM studies and/or Trade Studies
- Verifiable work experience (paid or unpaid) detailed in your resume
- Completion of a Certificate II in a relevant trade study (not mandatory)

You need to be reliable, punctual, safety-conscious, passionate about your trade, and eager to learn and adapt.

ABOUT AUSTAL

For more than 30 years, Austal has been designing, constructing and maintaining commercial and defence vessels for global clients.

As part of the Strategic Shipbuilding Agreement, and as Australia's shipbuilding industry grows, Austal is delivering advanced vessels for Australia's Army, Navy and Border Force, while also leading a new era of continuous shipbuilding in Western Australia.

From defending nations, to connecting communities and sustaining fleets, Austal contributes to projects that matter.

ABOUT THE PROGRAM

Austal has several apprenticeship opportunities available across the fabrication, electrical, fit-out and piping and mechanical departments.

Apprentices will develop their career working alongside experienced, dedicated and passionate industry professionals in a safe, collaborative and outcome-focused environment.

The company is looking for talented and passionate team members who are committed to quality and value to join the niche, but global, industry.

LATEST OPPORTUNITIES:

- Cabinet Maker: MSF30322 – Certificate III in Cabinet Making and Timber Technology
- Electrician: UEE30820 – Certificate III in Electrotechnology Electrician
- Boilermaker/ welder: MEM31922-AE16 – Certificate III in Engineering – Fabrication Trade
- Mechanical fitter: MEM30219-AD58 – Certificate III in Engineering – Mechanical Trade

BAKERS DELIGHT

Location: Various

Type: Apprenticeships and Traineeships

Industry: Food and Retail

Applications Open: Ongoing

Applications Close: Ongoing

Start Date: Ongoing

How to Apply: If the bakery you want to work at is not hiring, you can express your interest here:

www.bakersdelight.com.au/company/careers/expression-of-interest/

You can also speak to the Bakery's manager and give them your CV.

Website: bakersdelight.com.au

ABOUT BAKERS DELIGHT

Since 1980, Bakers Delight has been committed to delighting its customers and being pillars of its communities. It has been baking the same way for 40 years to give customers its signature delightful experience.

Still proudly family-owned, Bakers Delight is now Australia's most successful bakery franchise and can be found in more than 700 locations across Australia, Canada, USA and New Zealand.

ABOUT THE PROGRAM

Australian apprenticeships are available to anyone of working age. You can undertake an apprenticeship if you are a school leaver, re-entering the workforce or an adult worker.

LATEST OPPORTUNITIES

Each franchisee does their own recruitment, so please contact the bakery directly to determine whether there are any vacancies within the team.

“ I was very nervous as a young kid and I didn't know what I wanted to do as a career or what I wanted to do after year 12. Starting at the bakery was good as I was quite chatty but it was not what I thought I would be doing long term, but once I made the decision to work more full time hours, I really enjoyed the customer service side of things.”

Sam Reid

BHP

BHP

inside_bhp

bhp

ABOUT BHP

BHP is the world's largest mining company by market capitalisation, and is a leading producer of iron ore, copper, metallurgical coal and, more recently, potash.

Since 1885, BHP has grown from a silver mine in Broken Hill, New South Wales, to a global resources leader.

ABOUT THE PROGRAM

By undertaking a traineeship or apprenticeship with BHP, you can expect hands-on, industry-led training and mentoring from the talented workforce, as well as first-rate working conditions and a nationally recognised qualification in your chosen field on completion.

Australian apprenticeships are available to anyone of working age. You can undertake an apprenticeship if you are a school leaver, re-entering the workforce or an adult worker.

LATEST OPPORTUNITIES

- Electrical (FIFO and Resi)
- Plumbing (FIFO and Resi)
- Refrigeration (FIFO and Resi)
- Drill & Blast (FIFO)
- Warehouse Operations Traineeship (FIFO)

Please note that these positions are in BHP's Western Australia Iron Ore Asset. Other positions are offered at BHP through the Future Fit Academy Program.

“The WA Iron Ore Apprenticeship Program is a critical learning pathway embedded across our business, which offers training and employment opportunities for many people based in both regional communities in which we operate, and other areas of the State.”

Alisha Halse
WAIO Apprentice and Trainee Superintendent

ATC BLUEFORCE

Location: Tuart Hill

Type: Apprenticeships and Traineeships

Industry: Security and Technology

Applications Open: Ongoing

Applications Close: Ongoing

Start Date: To be confirmed

Enquiries: Nick Longman or Ellen Laurie 1300 731 716

How to Apply: Email your cover letter and resume to admin@blueforce.com.au

Website: blueforce.com.au

ABOUT BLUEFORCE

Established in August 2002, Blueforce is a leading integrator of security, safety, access control and surveillance systems. Providing turnkey solutions for the residential, commercial, industrial, health and aged care sectors, the company prides on providing dynamic solutions tailored to clients' diverse needs.

The business's consistent growth has led to the inception of its sub-brands – Bluesecurity, Blueassist and Bluecom – allowing it to enrich and diversify customer focus, while building and maintaining client relationships.

ABOUT THE PROGRAM

Australian apprenticeships are available to anyone of working age. You can undertake an apprenticeship if you are a school leaver, re-entering the workforce or an adult worker.

LATEST OPPORTUNITIES

- Apprenticeships - Security Technician
- Traineeships - Business Administration

"I joined Blueforce 15 years ago after finishing school and starting a traineeship. From running small jobs at the beginning to now being a leader to other techs on large projects, my time at Blueforce has been very rewarding and I am more than grateful for the opportunity."

Bob Taylor
Projects Team Leader

"I feel very grateful that I was given the opportunity to complete my traineeship with Blueforce. Being a part of such an innovative and supportive team has helped me grow, both professionally and personally. My traineeship helped with my transition from school to the workforce and the on-the-job experience allowed me to develop my communication, organisational, and teamwork skills. The opportunities I was given to participate in, and experience different areas of a business allowed me to try new things and discover my interests. After completing my traineeship, I was able to step into the role of Sales and Marketing Assistant, overseeing sales administration tasks and marketing for Blueforce."

Jasmin Black Sepulveda
Sales and Marketing Assistant

BRUCE ROCK ENGINEERING

BYRNECUT

MINING

BYRNECUT

Location: WA and SA

Type: Apprenticeships and Traineeships

Industry: Mining

Applications Open: Ongoing

Applications Close: Ongoing

Start Date: Ongoing

Enquiries: appadmin@byrncut.com.au

How to Apply: Email resume and cover letter to appadmin@byrncut.com.au

Website: byrncut.com.au

ABOUT BYRNECUT

Byrncut Mining Pty Ltd was established in 1987 as a contract mining company. Since its inception, the company has developed a reputation for professionalism and reliability. It has grown into a group that employs thousands of people and operates a multimillion-dollar fleet of specialised underground mining equipment.

Providing opportunities for its employees to grow professionally is beneficial to both the company and its staff. Byrncut is endorsed by the Australian Skills Quality Authority as an RTO to deliver nationally accredited training. Operator competencies result in the awarding of nationally recognised outcomes.

ABOUT THE PROGRAM

Byrncut is an equal opportunity employer that offers a range of apprenticeships in the mining industry. It provides excellent training and learning opportunities to young and mature-age people, with many progressing to full-time roles.

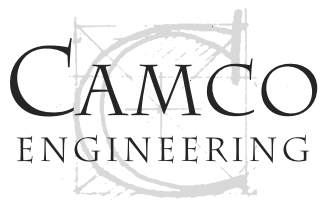

Apprentices are rotated through various mine sites, gaining valuable skills and experience working alongside mining professionals. They will also be given off-the-job training via an RTO. This training, combined with the skills gained on site, provides Byrncut's apprentices with the knowledge needed to conduct servicing, repairs, overhaul and fault-finding in their specific trade.

On completion, a nationally recognised Certificate III qualification for their specific trade is received. Desired attributes for apprentices include:

- Successful completion of year 11
- Strong communication skills and ability to work in a team
- Current C-class driver's licence
- Completion or partial completion of a pre-apprenticeship (highly advantageous but not essential)
- Mature-age applicants are strongly encouraged to apply.

LATEST OPPORTUNITIES

- Apprentice Heavy Duty Diesel Mechanic
- Apprentice Auto Electrician
- Apprentice Electrician
- Entry Level Truck Trainee Certificate 2 Metalliferous Mining
- Experienced Mining RPL and Upskilling Certificate 3 Metalliferous Mining

ABOUT DIRECTIONS WORKFORCE SOLUTIONS

Directions has 35 years' experience supporting individuals and businesses through apprenticeships and traineeships, personalised mentoring and career development. It is one of WA's longest continuously operating GTOs and prides itself on delivering a fresh approach to apprentice and trainee training.

As a registered charity, the organisation focuses on results and on making a difference, outcomes and relationships, not profits and numbers. The organisation is small enough for the personal touches and big enough to provide all the support, expertise and advice you need throughout the term of your training.

Directions is proudly and exclusively Western Australian and has produced some of WA's top performing apprentices and trainees including 17 finalists and award winners of major state and industry awards, and four Worldskills medal winners in the past five years alone.

ABOUT THE PROGRAM

Directions recruits for apprenticeships and traineeships across a diverse range of industries and occupations on a rolling basis throughout the year.

Interested candidates should check out Directions' website or socials for information on current opportunities.

LATEST OPPORTUNITIES

Directions recruits according to demand and numbers. The majority of our roles are at Cert III level or higher and include but are not limited to:

- Automotive – including Heavy Duty Diesel, Heavy Vehicle
- Aeroskills
- Engineering – including Light and Heavy Mechanical Fitting, Electrical Fitting, Fabrication
- Building and Construction – all trades
- Civil Construction

Website: ddh1drilling.com.au

ABOUT DDH1 DRILLING

Established in 2006, DDH1 is a leading provider of technically innovative drilling services to the Australian mineral exploration and mining industry. The company is passionate about the drilling industry, specialising in the delivery of safe, reliable and productive drilling solutions for its customers. DDH1's reputation is built on a track record of high performance and quality deep directional drilling. As a market leader, it places a strong emphasis on safety management and the employment of efficient, cost-effective operating systems and drilling practices.

DDH1's state-of-the-art fleet of 72 multi-purpose surface diamond drill rigs utilises the most advanced technology available to provide critical geographical information to its clients. The company takes immense pride in its skilled and committed workforce, acknowledging the pivotal role people play in its success. DDH1 invests in the continuous development of its drilling personnel through a structured training pathway, providing opportunities and qualifications for life.

ABOUT THE PROGRAM

Through DDH1's traineeship, you will gain valuable industry experience and a nationally recognised qualification of Certificate II in Drilling Operations. This certificate will see you develop communication and teamwork skills necessary for the industry, including risks assessment, emergency response and supporting the drill process. DDH1's traineeship opens doors for further qualifications in the drilling industry, providing a stable, long-term career path.

Website: domecoffee.com

ABOUT DOME

Great people are a key ingredient of the business's success in all its venues, from the well-known all-day Dome Cafes that reach from the top to the bottom of Western Australia, to its boutique regional hotels and wine bars.

Across all locations, the business offers its guests a place of welcome and comfort, be it for a cup of coffee, a lunch with friends, a business meeting or a weekend away.

To make sure that the business delivers on its service promise, it selects its teams for their attitude and for their abilities to reflect and be a part of the local community they work in. The business then teaches them the skills and imparts the knowledge that they need to excel in their role and feel confident as they grow and develop.

ABOUT THE PROGRAM

Formal qualifications have been added to the on-the-job training that it already offers. Its traineeships all offer:

ABOUT DOWNER GROUP

Downer designs, builds and sustains assets, infrastructure and facilities and it is the leading provider of integrated services in Australia and New Zealand. With a history dating back over 150 years, Downer is listed on the Australian Securities Exchange and New Zealand Stock Exchange as Downer EDI Limited (DOW).

ABOUT THE PROGRAM

Downer has at any given time approximately between 410-470 apprentices undertaking 40+ accredited qualifications. The aim of the Downer Apprenticeship Program is to build a rich and diverse pipeline of future skilled professionals.

To deliver its purpose, promise and pillars, Downer recognises that it is essential to attract, retain and develop apprentices and trainees who are willing to learn and progress with the business. This will ensure that Downer has a competitive advantage to secure a sustainable business for the future.

The Downer Apprenticeship Program provides individuals with comprehensive on-the-job training as well as supporting your formal qualification to ensure long-term career success and builds capability and confidence across its four pillars: safety, delivery, relationships and thought leadership.

LATEST OPPORTUNITIES

The apprentice or trainee intake occurs biannually, and the program commences either in January or June each year.

Downer's trade-based skills apprenticeship program covers a broad spectrum of trades. The company operates in electrical, civil construction, mechanical fitters, air-conditioning and refrigeration, plumbers, carpenters, chefs and mobile plant technology.

“Downer is very supportive and everyone there feels like they want you to learn and get better and be the best you can.”

ABOUT FREMANTLE GROUP TRAINING

Fremantle Group Training draws on nearly 40 years of experience in delivery of vocational and education programs. As part of the State's largest community-based not-for-profit charities, Fremantle Group Training seeks to create opportunities and improved access to school-to-work transition programs, quality employment and training services as well as a range of support mechanisms that meet each trainee's personal needs.

ABOUT THE PROGRAM

An Aboriginal School Based Traineeship (ASBT) is an excellent opportunity for you to commence your career whilst remaining at school. By participating in an ASBT, you can complete secondary graduation through a combination of school, an industry-recognised qualification and paid employment. ASBTs are paid a training wage for the duration of their traineeship (predominantly starting in year 11 and running through to the end of year 12).

As a trainee, you attend the workplace for a day per week, and also attend a day with an RTO. Fremantle Group Training is a GTO and employs you under a training contract whilst placing you with host employers.

Fremantle Group Training is considered your legal employer, managing superannuation, payroll, WorkCover, training and any other administration and mentoring associated with your employment contract.

ABOUT GRIFFIN INDUSTRIAL GROUP

Griffin Industrial unites Griffin Marine, Westurn Engineering, and its network of specialist partners under one banner providing the scale, skill, and speed necessary to deliver mission-critical projects across defence, mining, infrastructure, and marine industries.

What began as specialised support for Western Australia's industrial sector has grown into a multi-division powerhouse serving partners across Australia and the Pacific.

ABOUT THE PROGRAM

Launch your career with Griffin Industrial Group and be part of projects that shape Australia and contribute to defence, marine, mining, energy, rail and infrastructure projects nationwide. From advanced engineering and heavy fabrication to specialised refrigeration services, every day brings new challenges and opportunities.

At Griffin, experienced tradespeople work alongside apprentices and trainees providing hands-on training, mentoring and support to help build a successful career. The company offers above-award wages, paid TAFE attendance and experience across diverse projects, industries and locations.

How to Apply: careers.hiaapprentices.com.au

Website: hia.com.au/apprentices

ABOUT HIA APPRENTICES

HIA Apprentices offers apprenticeships within the residential building industry. HIA Apprentices is a leader in the selection, management, and training of apprentices in the domestic building industry. Established over 40 years ago, the business makes it easier for young people to get a trade, and helps builders and contractors take them on.

Committed to the development of its apprentices, its apprentices are placed with quality host trainers. The business offers dedicated mentoring and a pastoral care service from experienced staff/field officers. Apprentices will learn skills and confidence, a strong work ethic, value for time and a growth mindset.

ABOUT THE PROGRAM

The apprentice program guarantees that you will learn every facet of the industry that you need to know from the most experienced and skilled HIA members. You will have on-the-job training and mentoring with a mix of training courses to make sure you become a fully qualified tradesperson.

LATEST OPPORTUNITIES

- 25 Carpentry Apprentices
- 15 Bricklaying Apprentices
- 5 Roof Plumbing Apprentices

I was an HIA apprentice and the team gave me so much support, so I thought I would continue the journey as a host trainer.

Marlo Coelho
Qualified HIA Apprentice and
now Host Trainer

“If you’re up for a challenge and you want to learn from industry leaders, HIA Apprentices is the way to go.”

HorizonPowerWA

Horizon Power

@HorizonPowerWA

horizon_power

Horizon Power is Western Australia's regional and remote power provider. Its people are dedicated to delivering cleaner, reliable energy solutions to support WA's regional growth and vibrant communities.

Careers and training with a vertically integrated utility. Work towards a Certificate III Level across the field of Distribution Line Worker Overhead, Distribution Line Worker Underground or Engineering qualification.

Currently the company has no vacant roles in 2024 but would encourage regional applicants to visit its website for new positions.

“Our apprentices get to live and work within their regional towns and close to our customers. Horizon Power prides itself on this regional model and the whole community gets behind the Apprentice’s journey.”

Jodie Lynch,
Program Coordinator - Apprentices, Grads

“ I started my journey as an Indigenous Trainee, studying Certificate III in Business. After nearly 11 years as Customer Services Officer, I had the opportunity to change my career path on a whole new level, I started my new role as an Apprentice Power Worker in June 2022. Each day is different, I love getting on the tools and getting into the EWP when I can.”

Simone Long
Apprentice Distribution Worker (Kununurra)

- Certificates completed (eg: Cert II in Automotive)
- School Reports from your last two years of education (with comments)

Call Kaiden Trunfio on 0429 449 017 for further information.

Website: hutnorsales.com.au

ABOUT HUTTON & NORTHEY SALES

Established in 1976, the company is one of the Wheatbelt's most established, successful and reputable agriculture machinery and equipment dealerships. Hutton & Northey Sales is all about quality – quality people, quality processes, quality procedures and, importantly, a quality outcome for growers. With seven locations operating across the Wheatbelt, the company takes pride nurturing a team culture while providing opportunities for career advancement through internal and external training and further education.

ABOUT THE PROGRAM

The apprenticeships are full-time and fully paid, providing the opportunity to gain hands on experience in the industry, and qualifying in a Certificate III in Agricultural Machinery Technology.

As part of your specific qualification training, each year you will be enrolled in three, two-week TAFE training blocks at an accredited TAFE training institution off site. The company also offers ongoing upskilling and training into your employment to keep pace with rapidly changing technology in the industry.

LATEST OPPORTUNITIES

During your apprenticeship you will learn to diagnose, troubleshoot, examine, test and repair a range of heavy-duty machinery and equipment with industry leading technologies. This skillset is transferable world-wide.

“It's a great place to work, with endless opportunities to learn, and a can-do culture. Why wouldn't ya?”

Blake Dixon

Applications Close: Ongoing

Start Date: Ongoing

Enquiries: Email appadmin@byrnecut.com.au

How to Apply: Email resume, cover letter to appadmin@byrnecut.com.au

Website: jetcrete.com.au

ABOUT JETCRETE

With more than 40 years in the industry, Jetcrete has extensive experience in all aspects of concrete spraying. The business is capable of providing a complete service for all stages of underground shotcreting including excavation; onsite concrete, shotcrete and CAF manufacture; and supply, delivery and application.

Jetcrete also has capability to deliver surface and underground civil infrastructure works including earthworks, machine foundations, drainage and culverts, concrete slabs, heavy workshops and site offices.

ABOUT THE PROGRAM

Jetcrete is an equal opportunity employer that offers a diverse range of apprenticeships in the mining industry. It provides excellent training and learning opportunities to many young and mature-age people, with many progressing to full-time roles.

Its apprentices are trained at our mine sites, gaining valuable skills and experience working alongside mining professionals. The company arranges off-the-job training of all apprentices via an RTO. This training, combined with the skills gained on site, provides apprentices with the knowledge needed to conduct servicing, repairs, overhaul and fault-finding in their specific trade.

On successful completion of the apprenticeship, graduates receive a nationally recognised Certificate III qualification for their specific trade.

Desired attributes for apprentices:

- Successful completion of year 11
- Strong communication skills and ability to work in a team
- Current C-class driver's licence
- Completion or partial completion of a pre-apprenticeship (highly advantageous but not essential)

Mature-age applicants are strongly encouraged to apply.

Komatsu Australia

komatsu_australia

ABOUT KOMATSU

Komatsu is a global leader in the mining, construction and earthmoving industry, renowned for its unparalleled expertise and cutting-edge solutions. Boasting the most extensive factory-owned branch network in Australia, Komatsu ensures unmatched accessibility to a comprehensive inventory, genuine parts and a wealth of knowledge. This vast network not only opens doors to countless career prospects, both nationally and internationally, but also positions Komatsu as a hub for innovation and advancement in the industry.

Komatsu offers a Gold Winning Apprenticeship Program (Australian Training Awards 2023), serving as a testament to its commitment to nurturing talent, guiding apprentices through their professional journey with a unique blend of hands-on experience, technical insight and exclusive opportunities that set its apart from other workplaces.

ABOUT THE PROGRAM

The comprehensive Apprentice Development System steers Komatsu's apprentices through the intricate phases of their apprenticeship journey. In addition to the core curriculum, the program incorporates specialised training modules covering vital aspects such as driver safety, Certificate IV business units, public speaking, STEM sessions and other accredited learning opportunities.

Throughout the four-year apprenticeship, apprentices benefit from dedicated career guidance, empowering them to customise their learning experience and align it with

their individual areas of interest. This personalised approach enables apprentices to actively pursue and achieve their long-term career objectives while fulfilling the requirements of their apprenticeship. When beginning their journey, apprentices will commence in Komatsu's Welshpool or Bassendean locations and then have the opportunity to work at some of the company's regional branches or customer sites across WA.

LATEST OPPORTUNITIES

- Plant Mechanic
- Electrician
- Electrical Fitter

ABOUT MACA

MACA is one of Australia's leading contracting groups, specialising in mining, crushing, civil construction, infrastructure, and mineral processing for over 20 years. A trusted mining and resource partner, MACA has experience in all commodities at every project stage. The business employs over 4,000 people across operations in Australia and internationally. MACA is a proud Thiess company.

MACA understands that people are key to its success, and its highly skilled and dedicated team strive for continuous improvement to deliver tailored solutions that meet the needs of their clients and end-users. Committed to being number one at what the business does, MACA drives innovation to deliver long-term sustainable performance and value.

ABOUT THE PROGRAM

MACA is strongly committed to supporting its apprentices to reach their full potential. The company's structured training program provides apprentices the opportunity to gain hands-on experience and build their knowledge for a successful career in mining. In 2020, it introduced Apprentice of the Quarter/Year awards in recognition of apprentices' outstanding achievements. The company is looking for talented entry-level and mature-aged apprentices to join the team through its Apprenticeship Program.

LATEST OPPORTUNITIES

Approximately 40 places across the following disciplines:

- Certificate III in Automotive Electrical Technology
- Certificate III in Mobile Plant Technology
- Certificate III in Engineering - Mechanical Trade (Plant Mechanic ZG/Z)
- Certificate III in Engineering - Fabrication Trade (Heavy/Welding YH)
- Certificate III in Engineering - Industrial Electrician

“Our apprentices are the future of our business. As a MACA apprentice, you will have the opportunity to work across different sites, commodities and operating environments which will equip you with the skills and experience for a successful career. You'll work alongside qualified tradespeople with a wealth of knowledge who will help you thrive and reach your full potential. Each individual at MACA plays an important role in the successful delivery of projects.”

Joel Thomson
Head of People & Communication.

“I'm always eager to learn, and MACA provides great training and upskilling opportunities for anyone who is willing. Throughout my four years as an apprentice, I've had great mentors onsite who continue to support and challenge me to become a better mechanic. In 2021, I won Apprentice of the Year, which was a really great feeling and recognition of how far I have come as a mechanic. I'm proud to wear a MACA shirt.”

ABOUT PUBLIC TRANSPORT AUTHORITY OF WA

The Public Transport Authority's (PTA) vision is to be recognised as a leader in providing world-class public transport services and solutions. The purpose of the PTA is to provide safe, customer-focused, integrated, and efficient transport services that align with its core values.

As a fast-growing economy, Western Australia's public transport system, under the PTA, is recognised as the best in Australia and one of the most efficient, clean, and safe networks globally. Rail transport plays a vital role in our continued success and growth, exemplified by its numerous projects such as METRONET, designed to meet the public's needs and expectations. PTA is dedicated to delivering on its vision and purpose while upholding its values every step of the way.

TRANSPORT

TRUCK CENTRE WA

Location: Perth Metro – Forrestfield, Kewdale, Maddington and Spearwood

Regional WA – Albany, Bunbury and Port Hedland

Type: Apprenticeships

Industry: Transport

Applications Open: Ongoing

Applications Close: October 2026

How to Apply: jobs@tcwa.com.au

Website: tcwa.com.au/careers

ABOUT TRUCK CENTRE WA

Truck Centre WA is WA's home of Mack, UD and Volvo Trucks and Buses. It prides itself on being the single largest truck transport solution in WA. From a long-standing heritage of heavy-duty trucks in Australia, to now being at the forefront of vehicle advancements with the introduction of electric and hydrogen fuel cell technologies, the business is proud to be the trusted partner of many of Australia's key mining, agricultural, logistics and construction businesses.

The company employs over 300 staff across eight locations and as of 2025, it is proud to support over 70 apprentices in gaining certification (including dual trade apprenticeships) across its eight branches, including heavy vehicle mechanics and auto electricians.

ABOUT THE PROGRAM

We believe in a highly skilled workforce. We invest heavily in professional development and continual improvement for our employees through our specialised training plans, including a dedicated training department facility, structured e-learning modules, mentoring programs and apprentice events, to name a few.

ABOUT WA LIMESTONE GROUP

WA Limestone is a family-owned Western Australian company with over 50 years of experience in the quarrying and civil contracting industries. As one of the State's largest suppliers of construction materials, it operates 35 strategically-located quarries across the Perth metropolitan area and Pilbara region. The company produces more than 6 million tonnes of materials annually, including crushed limestone, aggregates, sand and specialty products essential for road construction, concrete production and landscaping. WA Limestone is also involved in marine infrastructure, civil contracting and heavy haulage services. Committed to safety, sustainability, and community engagement, the company continues to play a vital role in WA's infrastructure development.

ABOUT THE PROGRAM

WA Limestone's apprenticeship training program is designed to equip aspiring professionals with the skills, knowledge and experience needed to excel in their chosen trade or field. WA Limestone is committed to fostering the next generation of talent by providing a structured learning environment that combines hands-on experience with comprehensive training, mentorship, career development and an industry recognised certification.
